GENERAL INFORMATION/DESCRIPTION:

Household: OV (3 yo) lives with mother (MO) and sibling (SB) 1 yo. MO is currently staying with her boyfriend (PP.) MO was living with the children at grandmother's (GMO) and aunt's (AU) home, but recently left. MO is pregnant.

GMO and AU both have difficulty getting around, but can still meet their ADLS. They use a walker, wheelchair or cane to assist with mobility. GMO is on disability for depression and anxiety.

No known special needs with OV and SB.

Today is 4/25/18.

MO has been gone from GMO's home for about two weeks now. She will not tell anyone where she is staying or where she is leaving OV and SB. MO is staying at a motel somewhere in Hurts or North Richland Hills. MO still goes to GMO's home during the week to collect some belongings, but does not take OV and SB with her.

MO is strung out on meth. While she was staying at GMO's home, she stayed in a bedroom that has a bathroom and a door exit to the back porch. MO would confine herself and the children to that area. Paraphernalia was found in the back porch. There was a small table and a chair. The children had to be around MO's drug use considering that was the main area she would stay with them. MO had highs and lows. She was up for days and then would sleep for days. When MO slept, she would keep OV and SB in that living area with her. MO now stays in one bedroom at the hotel with OV, SB and PP. There is concern about OV and SB continuing to be exposed to drug use.

While MO slept, there were numerous times where OV wandered out of the home and walked over to the mobile home across the way. MO thought GMO and AU should be watching him, but they are elderly and have told MO they cannot watch OV and SB. Approximately two or three months ago, OV broke his leg and required surgery at Cook Children's Hospital. MO was leaving OV with someone and was there dropping him off. She was getting ready to go to a Casino. MO stated OV fell in the hallway and she had to take him to the hospital. Further details were not known. OV also broke his leg prior to that at his school, but he did not require surgery then.

MO got out of prison about a year and a half ago. She was found with less than 4oz of meth in the vehicle around October 2014. The meth was in OV's car seat. MO has been in and out of jail approximately 10 times and has also had DWIs.

There were numerous times that MO was three hours late to pick up OV and SB from their early Head Start program. School called many times regarding MO being late.

OV and SB were often dirty. MO has left their diapers on all day. OV was seen with marks on his body that look like chicken pox. MO stated they were bug bites. OV and SB are eating, but MO puts the food stamps for each.

MO is pregnant and due 7/17/18. She went to the hospital and learned she is having a girl. MO has not gone back since.

CPS INVESTIGATION REPORT

Case Name: Nance, Rebecca J
Case #: 46813988

OV's father is unaware of the situation. Contact information for him is not known.

There are no known weapons or gang activity. MO and PP engage in domestic violence. GMO no longer wanted PP to stay in the home and this is why MO left.

Delma L. Ramos PSIS IV

CONCLUSIONS:

CPS NSUP, PHNG P1: 3 yo and 1 yo are exposed to mother's meth use and paraphernalia. Mother has a history of drug use and has failed to properly supervise 3 yo and 1 yo while under the influence. 3 yo and 1 yo do not currently appear to have a stable caregiver. Mother provides poor physical care.

No history found.

LOCATING INFORMATION: Directions. When the family is home. Where the victim can be seen.

WISE COUNTY SHERIFF'S OFFICE, REPORT #

OV (3yo) resides with SB/VC (1yo), SB/VC (1mo) and MO. PP/AP resides on the same property in a separate home. There was no mention of any special needs, medical or mental health conditions.

Today is 8/8/2018

Law enforcement were dispatched to the home around midnight this morning. Law enforcement were advised that PP and MO got into an argument and he punched MO in the face. MO was observed with swelling and marks to her face. PP also grabbed MO by the throat and cut off her air for some seconds. There was no mention that MO lost consciousness. PP also drug MO by the hair a few times. It is unknown where OV and SBs were at the time of the incident but they were in the home. OV and SBs did not appear to have been harmed or injured when Law enforcement made contact with the family. There were no additional concerns for the children's physical health or appearance.

PP was not arrested but a warrant for his arrested will be filed. He is still on the same property but in a separate home. A protective order has will be filed for MO. Law enforcement advised that PP was intoxicated at the time of the incident. It is unknown whether PP has a history of drinking to the point of intoxication. There was no mention of any previous physical altercation between MO and PP.

There was no mention of drugs, weapons or gang involvement.

Diana Pita PSIS III

CONCLUSIONS:

CPS NSUP P2

PP's physical violence towards MO will 1mo, 1yo and 3yo placed them in danger of harm. 1mo, 1yo and 3yo did not appear to be harmed or injured. 1mo, 1yo and 3yo are of vulnerable age.

GENERAL INFORMATION/DESCRIPTION:

46813966 MRG CPS OPN Nance, Rebecca J WISE Hanks, Amber Investigation PRN

Today is 08/14/2018

Household composition: OV(1yo/m), SB/VC(1 month old/f), MO, GMO, and great AU(75yo/f). PP/AP is parent to SB. There are no special needs for the children. AU is able to perform her ADLs.

There is a history of family violence between MO and PP. CPS told PP to move out of the house on 8/8/2018. PP works across the highway. MO brought PP to the house yesterday afternoon. PP thought he was going to be able to move back in. AU made PP leave. PP did leave the residence. There was no physical altercation.

Today, MO, OV, SB, and GMO visited PP at PP's work. PP did not return to the home today. AU has informed PP that PP is not permitted in the home.

PP hit MO over a week ago. MO had bruises on her entire face from the hairline, down the cheekbone to the chin. Based on the bruising, it is possible that MO may have been knocked off her feet. Later that day, GFA saw the bruises and called the police.

It is unknown where the OV and SB were at the time of the physical altercation between MO and PP. It is unknown if the children were in danger at the time. GMO and AU were in the home at the time of the altercation. It is unknown if PP has hit MO before this incident.

There are no concerns with the care of OV and SB. There has been no family violence between PP and AU.

There are no known safety concerns in MO's residence.

Susan Rasche, PSIS IV

CONCLUSIONS:
CPS NSUP P2

Physical violence between MO and PP place 1mo and 1yo in a situation of ongoing danger. MO does not appear protective in that MO continues to have contact with PP with 1mo and 3yo. 1mo and 1yo are vulnerable and unable to protect themselves.

No additional history found.

CP6 INVESTIGATION REPORT

Case Name: **Nemco, Rebecca J**
Case #: **46813666**

Eligibility Questions:

Risk Assessment finding is Risk Indicated; therefore, a child is at risk of abuse/neglect.

The child lives with a parent or relative or has lived with a parent or relative at some time during the past six months. It is correct to say that we have no information that indicates that the risk of abuse/neglect was directly caused by a caretaker's refusal to accept employment or training for employment.

Determination:

The child meets the above Emergency Assistance Program eligibility criteria. The child and family members are authorized for all assistance and services determined to be necessary and appropriate.

Allegations

Ms. Nance stated she is pregnant right now, and Christopher Betts is the father. She stated she is 6 months along. She stated since moving to Tarrant County, she has not gotten an OB/GYN set up, but she will get that completed. She stated her mom is on disability, but she doesn't know why. She stated her mom and aunt can get around just fine, and care for the children if needed. She stated they are capable of completed their daily living needs. Ms. Nance stated she was living with them, but moved out. She stated she moved out because there was an argument with her boyfriend, and he was no longer aloud to live there. She stated she did go pick up some of her belongings this past Saturday and didn't bring her children. She stated she didn't bring her children so she could get things accomplished. She stated Alden was with his father, and Ian was with Mr. Betts. She stated she does let her family know where they are. She stated she does not hide where she and the children are at. Ms. Nance stated the allegations are bullshit. She stated she has never confined her or her children to a specific area. She stated her children have never been exposed to any drug use or paraphernalia. She stated there has never been any foil or glass pipe around her children. She stated the only foil the children have been around is foil used to make or cover food. She denied any current Meth use. She stated she did have a history of Meth, and has not used in over two years. She stated she was arrested for [REDACTED] but it was not the amount alleged in intake. She stated the Meth was not found in her child's car seat either. She stated her children have never been exposed to any sort of drug. She stated she was locked up for 6 months, where she attended treatment for drug use, and started to attend Alcoholics Anonymous and Narcotics Anonymous. She stated she has not been going to meetings because she is trying to get settled, but is willing to start the meetings again. She stated she has not relapsed since getting locked up. She stated she does use Marijuana socially, but ensures her children are with an appropriate caregiver. She stated if she chooses to use Marijuana she is not around her kids or a caregiver of her kids while under the influence. Ms. Nance stated she does not believe she has a drug problem. She stated her oldest son did have an accident in which he broke his leg, but he did receive appropriate medical condition and the school investigated the incident. She stated there has never been any incidents where her children have wandered off alone. She stated when she lived at her mom's home, there was a cousin across the road that Alden knew lived there. She stated if anything, Alden may have walked over to the cousins house, but she would always be right behind him. She stated the children are always clean, and they bathe every day. She stated her children have not had a diaper rash. She stated her son did have bug bites at one time, but that is exactly what they were. She stated she has not always been punctual about picking the kids up, but it's not like she is late picking them up at a random place. She stated if she has ever been late picking up the kids, they have always been at day care. Ms. Nance stated she does not sell her food stamps for cash. She stated none of the allegations are true. She stated her children have stable caregivers. She stated she always make sure the children are fed, bathed, and have a roof over their head. She stated this is all crap and she wants this to be over with already. She stated her children are not neglected or bruised. She stated she takes care of her children.

Mr. Betts stated the allegations sound like they are from someone mad or jealous. He stated he believes the reporter is Matthew Porter, who is always trying to cause problems for the family. He stated the allegations are refuted. He stated he knows everyone can have a weird past, but this is all a joke. He stated none of the things alleged happen here. He stated he has been with Ms. Nance for over a year and has never seen anything like that. He stated he is educated with two degrees. He stated the only reason they are in-between homes is because he walked out on his job. Mr. Betts stated if he ever saw anything to cause concern for the safety of the children, he would be willing to intervene and notify CPS or law enforcement.

He stated he gets Aiden every week or every other week pending his work schedule. Mr. Cruz stated he is protective of Aiden. He stated if he ever noticed any threat of his son's safety, he would intervene and notify CPS or law enforcement as needed. He stated if needed, he would take over complete custody of Aiden. Mr. Cruz stated he was the only caregiver of Aiden when Ms. Nance was locked up a couple years ago. He stated the only reason he has let Aiden reside with Ms. Nance is because Aiden has a brother there, and he believes it is very important for a child to grow up with their sibling. He stated he is aware that Ms. Nance has had a drug problem in the past, which is what led to the end of their relationship. He stated Ms. Nance went through rehab when she was locked up. He stated maybe Ms. Nance needs a better support system so she doesn't relapse. He stated he has not had any suspicion that Ms. Nance has been under the influence or is using again since she got out of jail. He stated Ms. Nance is pregnant and is going to the doctor, and they would notice any concerns. He stated Ms. Nance always puts her children first, and above anything else. He stated Ms. Nance takes good care of her kids. He stated he would not allow Aiden over there if he thought anything was going on. Mr. Cruz stated Ms. Nance's ex, Matthew Porter, is probably who reported the case. He stated Mr. Porter has a history of drug use, and has told him that he still uses drugs. He stated Mr. Porter has been harassing him, and is trying to fight Ms. Nance for custody of Ian. Mr. Cruz stated if anything comes up, or if he finds out they are doing anything that threatens the safety of his son, Aiden will not be going back over to their home.

Home Observation

The home was clean and organized. There were no foul odors or drug paraphernalia observed. Running hot water and electricity were observed to be in working condition. There was milk, eggs, and other perishables in the refrigerator. Baby wipes and diapers were observed. Aiden has his own bedroom with a full sized bed with clean and appropriate bedding. The children were clean and appropriate. The children had no visible marks or bruises. The children appeared on target for their age. Neither child is old enough to be verbal and could not be interviewed.
Face to face contact with Rebecca Nance, Christopher Betts and Mary Franks
I rang the doorbell and Mary Franks answered the door. I was granted permission to enter the home. At no point was I asked to leave the home or permission to be in the home revoked.
Mary went to get Rebecca from her bedroom. I informed Rebecca I was here about a new case that was called in, due to the domestic violence incident. Rebecca immediately began to cry. She stated she didn't know we would be notified. Rebecca stated the incident happened on Sunday. She stated she and Christopher got into an argument and it lasted most of the day. She stated Christopher hit her multiple times, and that he choked her. Rebecca denies the children being in the immediate vicinity when the incident occurred. Rebecca stated Alan was born on July 4, 2018. She stated there were no complications. Rebecca stated Alan has had no issues and is healthy.
Rebecca stated and Christopher stated they understand the department's position with the domestic violence in the home. Christopher and Rebecca agreed to take an oral and/or drug screen. Both submitted to the drug screen.
Rebecca admits to using methamphetamine and marijuana. Christopher agrees to using marijuana and drinking alcohol in excess. I staffed the case with Supervisor Mark Hanson. I was advised I would not be able to seek a PCSP due to the previous safety plan not being documented. A safety plan will be put in place at this time. The safety plan states that mother and father are to not live in the home together. Father has agreed to move out of the home. Mother and father will not have any unsupervised contact with the children. Child, Ignacio will live with his father at this time. This is agreed upon by Rebecca and father Ignacio. Mother and father will cooperate and work services with FBSS. Mother and father will complete a drug and alcohol assessment with Star Council.
Approved supervisors are Mary Franks, Brenda Nance and Jessica Nance.

08-28-18 FTF Brenda Nance and Mary Franks 11064 SW US Hwy 287 Rhonoma
I arrived at the home at 3:20pm and Mary Franks met me outside and invited me into the home. The home was cluttered but no ill
smells in the home. The utilities we all working and there was food in the home.
I asked them where Rebecca and the children were. Mary said that Rebecca has taken Ian and Alice with her to go pick up Alden at
school. Mary and Brenda had been to the doctor today and Rebecca was running late to get the kids so she went. Brenda's health has
not been good lately. She had to get 4 units of blood in the past couple of weeks and not sure why.
Mary said that they had been having to make a lot of trips to the doctors.
I reviewed the current safety plan with them about Rebecca not being left unsupervised with the children due to drug use. (I am not
sure they got what I was talking about even after I explained to them a couple times).

Rebecca and the children came in at 3:35. Rebecca had the look of someone getting caught doing something they were not supposed
to. She started to explain this was the first time this happened and it was just because she was running late. I reviewed the currently
safety plan with her and said she knew and please don't take her children. I explained I would have to start this with my supervisor and

"ATTENTION: You are reading a REDACTED copy of the record. Do not share with anyone not entitled under confidentiality laws."

we will see where we go from here. I explained there was a good possibility that the state could take custody of her children. I step out to staff with my supervisor.

FTF with Aiden, Ian and Alice
All the children were clean, dressed appropriately and showed not signs of abuse or neglect.
Aiden had been at pre-school and liked it

Staffing with PO Lishawa Jackson
It was decided to look for a PCSP option but the children could not stay in the home with mom at this point. It was also decided that due to the health concerns of Brenda they children could not be in a PCSP with Brenda and Mary.

FTF with Rebecca Nance
Rebecca said that Jessica has a special needs child and cannot take all 3 of the children. She suggested that maybe Lora Ford might be able to help her out. She asked for to keep the safety plan in place. I explained to her why we could not. She admitted to smoking marijuana the day before and smoking methamphetamine over the weekend. She said she smokes it for energy and has used off and on over the past 4 years. She denied any mental health. She smokes the marijuana for stress in dealing with 3 kids without help.

TCT Lora Ford 817-706-2462
Lora works at the daycare Little Jacks. Lora said she would call her mother and said that between them they could care for the children. She said she did not think either one of them could competency care for the children. She gave me her information.
Lora has no CPS

Criminal History

Lora said she would head to the house and call her mother to come as well

FTF Rebecca Nance, Lora Ford, Jesse Roberts, Mary Franks, William "Billy" Fredericks, Lorie Fredericks, Brenda Nance, Grayson
The family was gathered together and jointly worked out a plan for the care of the children. no one could handle all 3 kids at once.
So Lora Ford (Cousin) and Jesse Roberts (Lora's boyfriend) would take Alice Betts (5 month old). Lora lives 150 yards down the road from Mary Frank's house where Rebecca will be staying.

Lorie and William Frederick will take Aiden (3) and Ian (2). They live 2.5 miles from Mary's house.
The plan is that Rebecca will come to the house around 6am to help get the boy's ready for school and will go with William to take them to school each morning.
The family will work out the visitation within themselves.

Rebecca has completed the Drug assessment. She will be starting the Classes Monday, Tuesday and Wednesday 5 to 7:30pm.
I talked to the entire family and we decided to set an FTM on Wednesday at 5:30pm at the CPS office in Decatur.

I talked FGDM Amelia Payne who confirmed she would be able to do the FTM and I gave her the father's names. She said she would call the fathers to invited them.

08-28-18 FTF Lora Ford and Jesse Ford at 11044 SW US Hwy 2387 Rhome
The house is a single wide trailer. The house was clean with some clutter. They have a pistol in the home but it is locked up in the gun safe in Lora's bedroom.
They have utilities working and food. There is no pool at the home. The baby's formula will be provided by Rebecca through WIC.
They have asked for help with daycare.

Lora works at the Daycare Little Jacks. Jesse is a security guard that works nights and most weekends
Loren is 17 year old daughter of Lora. She stays mostly with her grandparents but does come to the house occasionally.

Lora and Jesse have no cps history

Lora and Jesse both deny any mental health issues. They both deny taking any type of medications.

They denied any domestic violence and said they have a good relationship with each other.

Lora said she had a good childhood with great family support and love.
Jesse was raised by his grandparents and it was very structured.

Lora and Jesse denied any drug use or drug history. They both said they rarely drink maybe a beer or something every couple of months.

We discussed supervision of Rebecca and that they need not to allow Rebecca to be alone with the baby or stay the night with them.

Grayson Ford (3) lives in the house. He was way too busy playing to talk to me but seemed to be developmentally on target, clean and appropriately dressed.

Loreen Landers (17) lives with grandparents most of time. She is a Senior at Northwest High School by the race track. She is doing well in school and plans on attending college at University of Arkansas or Oklahoma. She wants to be a doctor of medicine. Loren denied any mental health issues.

Loren has a good relationship with her mom and does not much to do with her biological father.

She denied any sexual abuse or being sexually active.

Loren has never seen any domestic violence between Jesse and her mother.

She has no concerns with her mother caring for the child. Her Call is 817-583-1008

She has no concerns with Lore. Lore is a great mother, just look at her oldest and youngest children

Lore takes good care of her kids and works at a daycare.

Lore always puts kids first. Lore would be great to take care of children.

Mary Franka (grandmother to Lore) FTF

Lore is a great mother and takes wonderful care of her children.

Lore will do anything to help family and to care for kids

She works at the daycare

Lore would be great to care for the baby.

She has no concerns

Started the PCSP with Lashaw Jackson PD

The PCSP was approved.

Grayson's room was moved around to accommodate the pack in play for Alice, So Alice will sleep in the same room as Grayson

At this point I followed Lore and William with the boys to their house.

08-28-18 FTF Lore and William Frederick 320 Redbud Rhinome TX

The house is a brick 3 bedroom and 2 bath with all the utilities working. The house has food and is clean and appropriate. The boys bedroom has a bed and toddler cot for Ian and Alden. There is no pool. There are gun safes that are locked. There are dogs but they are in the back yard.

William "Baby" and Lore Frederick have been married over 20 years. They are cousins to the children. They have a good relationship. Lore and Billy do not have any CPS or Criminal history. Both denied any domestic violence between them.

Lore and Billy denied any drug history and said they drink maybe a couple of times a year. Billy has a hip and knee replacement and is on disability. Lore works outside the home. They will need help with daycare.

They both denied any mental health issues. They are not taking any medications. Lore said she had a normal childhood. Billy said he had a good childhood.

Their history was ran and nothing was found to keep them from being a PSCP.

08-28-18 Collaterals for Lore and Billy

FTF Mary Franka (mother)

Lore is great with kids and every calls Billy Pop.

They raised good kids

She has no concerns for Lore or Billy.

FTF Mark McCleary (neighbor)

He has know Lore and Billy for 14 years.

They are good people. They don't drink and don't do drugs.

They are very family oriented

He has no concerns with them for caring for children.

The only problem is they have dogs in the back yard that bark.

The mom is not being protective of the children. The mom violated the original agreement with the Dept that she would be supervised with the children. As a result Ean and Aiden are being placed in a PCSP with Mr. and Mrs. Fredrick. There were not any criminal or CPS History found on either of the Fredrick's. The home appeared appropriate and the children have adequate accommodations.

FBSS Staffing

Date of Staffing: 9/4/2018

Case Name: Rebecca Nance

Date Referral Assigned: 8/23/2018

Reason for Involvement and FBSS? This case has been open since April 2018 and we are involved due to domestic violence between the mother and one father, Chris. The Department did not take appropriate steps to work this case so the family was not seen for a few months. We finally spoke with them and saw them on 8/8/2018 and both parents admitted to using methamphetamines. We implemented a safety plan that the mother and father would be supervised with the children and the father would move out of the house due to the domestic violence concerns. The maternal grandmother and maternal aunt were approved to supervise contact as everyone was living in the aunt's house. Prior to this occurring the oldest child was living with his father in Arlington. The father to the middle child is unknown. Investigations attempted to have a family team meeting and it was not working out as the mother would not call back. Then weeks later they attempted to schedule one again and we found out the mother what had been alone with the children so the investigative supervisor, Mark Hanson went to the residence. When he arrived the mother was alone with the children. On this day the mother admitted to using methamphetamines the previous weekend and marijuana the previous day. We put one child in a PCSP with Lora and the other two in a PCSP with Lorrie. We did not drug test the children. We had an FTM and FBSS was involved. The mother and father are not following the FTM plan. The mother has not been going to the PCSP residence to get the two older children ready for school every morning and she has not been going to see the children on the weekends. Investigation supervisor told the PCSP if the mother is visiting and they feel she is under the influence and they can ask her to leave the residence. The day after the family team meeting Chris completed his drug assessment and was [REDACTED] for methamphetamines at his appointment. He did qualify for drug treatment. The mother is scheduled to start attending drug treatment tonight. The mother is not on probation. The father has been arrested for the domestic violence. In speaking with the family it appears the mother is more concerned about the father then working services.

CONTACT NARRATIVE

09/05/2018 Staffing With PCSP Supervisor Marilyn Glenn

We have been mandated by Natalie Witherspoon to begin working with all new PCSP's and make contact. This referral has been assigned to a PCSP worker to *provide more support and opportunities for the caregivers resulting in more positive outcomes*. This has been assigned to Angella Rosado. I have made the PCSP worker secondary on the case. The PCSP worker will be contacting you to meet with the primary worker to introduce the PCSP worker and the new process and then the PCSP worker will be making all visits thereafter to the PCSP home.

09/05/2018 Staffing With PCSP Supervisor Marilyn Glenn

Two placements: 1st one Ian and Ignacio Cruz with Lorie Frederick. 2nd placement Alice Batts with Lora Ford

09/10/2018 Text Message back in forth between Rosado PCSP worker and both caregivers Lorie Frederick and Lora Ford.

(Summed Up)

Rosado will meet everyone at Frederick's home but when finished go to Lora's home to tour it. Everyone requested to be together due to number of people. Rosado will meet at 7:00 pm at Lorie Frederick's home first.

Overall all caregiver including Mr. and Mrs. Frederick, Ms. Ford, and Mr. Roberts are all overwhelmed. They feel it wouldn't be so bad but they feel mom is causing way too much drama. She was arrested over weekend for theft charges. She was picked up at Wal-Mart.

Both placements have copy of safety plan, PCSP paperwork, and power of attorney. They all understand that placements are designed to be temporary but depending on mom's and dad's progress help may be needed long-term. They do not know how they feel about long-term at this exact moment.

They are upset because Friday morning Mom came over to help get boys ready for Head Start. When she came in she was carrying a big cup. She took boys to bathroom and Ignacio started crying saying "no and don't mom." Mr. Frederick opened door and said mom was trying to help Ignacio brush his teeth. At this point mom placed her cup outside of bathroom window and walked outside to get it. Later on she admitted to Ms. Frederick that she had alcohol in it and she didn't want to dump it out because she wanted to save it for later. We discussed they need to make sure they are supervising all contact. They stated CPS said as long as they

CONTACT NARRATIVE

9/18/2018--Initial with Rebecca Nance

Initially went to Ms. Nance's home, however I received a text she was at the CPS office. Ms. Nance stated she is with a friend that has an appointment in Bridgeport at 11:30am. Due to the miscommunication Ms. Nance agreed to meet me in Bridgeport and speak.

The family plan of service was discussed with Ms. Nance. She reported she has already contact Wise Hope about health relationships and is actively working with Star Counsel. Ms. Nance agreed to all items on the family plan. Ms. Nance stated she is currently clean and stated she is grateful for having such a positive family to support her. Ms. Nance reported Mr. Batts is in jail currently and it is nearing 30 days in the Wise County Jail. She stated it was probably in his best interest because he has had no choice but to be clean.

Ms. Nance was provided with the Keeping Children Safe Wherever You Go pamphlet. We discussed safe sleep for infants. Children should sleep alone, on their backs, in their own cribs without any blankets or bedding. This is the safest form of sleep for babies and lowers their risk of SIDS. Ms. Nance reported Alice has a pack'n play she sleeps in. We also talked about car seat safety and the appropriate car seats for the age of the child. Children should never be left unattended in vehicles. Ms. Nance reported having proper car seats for all children. Caseworker talked about water safety and never leaving children alone around water including, but not limited to, bathtubs, pools, hot tubs, lakes, or even toilets. Ms. Nance understood this and reported she did not take the children swimming over the summer due to not having floating devices and lifejackets. Also children should wear age appropriate life jackets. Firearm safety was discussed. Ms. Nance denied having firearms. The family explained to worker where the cleaning supplies were kept and discussed keeping them out of reach or safe using locking mechanisms. Also keep cleaning products in their original containers and use proper dosages when taking medications prescribed or over the counter. Parents understood that TVs should be secured to the wall to prevent from tipping over on the children or being pulled down by curious children. We discussed shaken baby syndrome and ensuring you are providing caregivers that want to care for their children. We discussed appropriate ways of dealing with stress when babies are crying such as leaving the room for a moment to take a breather and reaching out to support systems to ask for help. The last thing discussed was people caring for the children in the parent's absence. They understood that with the Department involved criminal and CPS checks have to be ran on any persons over the age of 14. When the case is closed they need to be asking themselves questions such as:

- Does this person really want to watch my child?
- Is this person good with kids? Can they meet the needs of my child?
- Is this person capable of handling the job?
- Do they know how to handle crying?

CONTACT NARRATIVE

10/09/2018 TCF Lora Ford 817-706-2462 (PCSP Caregiver for Alice Batts)

She called to discuss how things been going since Friday since Alice has been in hospital. She stated Friday afternoon she left daycare because Alice had 105 temp and she drove straight to Cooks. Lora and Lorie (both PCSP Caregivers) tried to call bio mom Rebecca to let her know she didn't answer but did later on Friday. Lora talked with CPS and it was determined that mom can come to hospital and see Alice while Lora attended her daughter's homecoming event. Lora got back to hospital at 10:30 pm where Rebecca was sleeping and slept all night. Lora and Shane were up with Alice night long. Saturday Rebecca woke up at 10:00 am and went home. Lorie came up to relieve Lora at 10:30 am. Rebecca called at 9:00 pm and asked how she was. She said she would come up right away Sunday morning. They didn't hear from her until 3:00 Sunday and she went to go see the boys instead and spent time with them. (which they approved and didn't mind) Monday, Rebecca didn't show at hospital. Lora talked to her in the evening and said, I thought you had class today? Rebecca said to Lora, I did but I used Alice as an excuse I wanted to stay home and sleep and spend time with Shane. They got into an argument. Rebecca said, she needed to improve and get things back on track. They have been sacrificing their on family to help Rebecca out they are willing to give everything one more shot but they are requesting a stricter visitation plan. Rebecca come in mornings to help boys get ready for school. Monday thru Friday 6:30 am. This is at Lorie's home. (Rebecca only). On Saturdays Rebecca and Shane can meet at Rhone City Park and see all children. They are blocking at 2 hour period. We discussed Rosado will talk with Primary worker Sledge and let him know the caregivers request. Things are getting tough and they want to help but if mom continues causing issues and drama they may ask kids to be moved. They said kids are great more issues with mom.

10/09/2018 E-mail sent to primary worker Sledge about concerns and requests.

CONTACT NARRATIVE

10/10/2018 PCSP worker Rosado made FTF contact with Alice Batts, Lorie Frederick, and Lora Ford at Cook Children's Medical Center located at 801 7th Ave Fort Worth, TX
Rosado checked in at Cooks Children security and made her way up to room 6308. Rosado knocked on door and stated who I was. Ms. Ford said come in Angella.

Alice Batts

She was observed laying in crib when case worker first arrived. She is hooked up to vital sign equipment. She was observed sleeping and then woke up later. Ms. Frederick changed her diaper and fed her a bottle. Her chest is observed raising up and down fast and observed breathing fast. he was wearing a clean diaper and wrapped in a blanket.

Ms. Ford stated last Thursday evening October 4th, Alice had a temperature and sounded congested so herself and mom Rebecca took her to urgent care. They said she just has a cold and sent her home. The next day on the 5th at daycare her temperature was up to almost 105. She rushed her to Cook Children and had her mom, Lorie, call bio Mom Rebecca. Alice got admitted and has been her since Friday. She tested [REDACTED] for the Norvo Virus and for Bronchitis. They have her on Antibiotics. They are still concerned about her heart rate. They are completing Echo, and sonogram of her heart. If okay they may be discharged today. Overall, she has improved a lot. She is breathing better, sounds better, and her color has improved. She is eating much more and also she has many wet diapers, per caregiver.

Overall, Ms. Ford stated there has been no changes to her home. Her family is still willing to provide care but hopes mom stops with all the drama. Case worker asked her to explain, she said mom will say she is coming and doesn't, or shows up without calling, nothing is good enough, they are always doing something wrong.

Alice's dad is out of jail and he is visiting. She said the visits are okay with him. He is on probation.

Alice's ECI eval is coming soon.

Alice is still attending daycare at Little Jackets. CPS is working on back pay.

Alice may have two doctors because mom keeps calling Medicaid and changing everything. It's either Dr. Lewis or Dr. Alling. She still need her shots. Her two month well check is this month.

We discussed CPS will do another visit with her once she gets discharged from hospital.

She stated safety points still the same:

Potty Training- Alice is too young.

Discipline- Alice is too young.
